ST. ANDREW'S and CALEDONIAN Society meets in their hall, Broughton street, between Government and Broad streets on the FIRST FRIDAY of every month. All Scotchmen are invited to join.
sep 1-1y WILLIAM SCOTT, Secretary

THE TIMES.

The present issue of THE TIMES completes the third year of its existence, and to-morrow it will enter upon the fourth volume. Three years is but a brief period of time, but the three first years in the life of a newspaper are the most important of its existence, as during that time it generally passes through the crucial test of its life, and either lives and prospers or goes into galloping consumption and dies prematurely. The Daily and Weekly TIMES have continued to advance ever since the first issue, on June 9, 1884, and to-day their circulations and influence, as well as the advertising patronage extended to each, are larger than ever before, and continually increasing. There is, of course a cause, for this gratifying result, outside of any efforts of ours and possibly apart from the merits of the paper. There was a public want for a live, independent evening newspaper, and this want has in a large measure been supplied by THE TIMES. The public have shown their appreciation of our efforts by a liberal patronage, for which it is fitting that at this milestone on the road we should return them our warmest thanks, at the same time expressing the hope that our course in the future will merit—when we have no doubt it will receive—the same general and generous encouragement.

As an evidence that we propose to keep pace with the times, and so maintain the position we have achieved, we to-day print our paper on a new cylinder press worked by steam. Up to the present, our motive power has been two muscular arms which with the rapid increase in circulation has been found much too slow and uncertain. With our new appliances we will be enabled to get THE TIMES on the street earlier in the evening, which will, we feel convinced, be gratifying to all our city readers.

At the same time that these alterations, which are undoubtedly for the better, have been made, a slight change has occurred in the management and supervision of the business of the company. Mr. W. TEMPLEMAN, who has been connected with the paper for several years, assumes the managerial position, thus relieving Mr. J. C. MCLAGAN of a portion of his duties, and allowing him more time to devote to the important branch of the business committed to his charge.

With these explanation, we enter upon our fourth year with the fullest confidence that the result of our efforts will be mutally satisfactory to the public and to ourselves.

Pitched Battle.

OTTAWA, June 7.—The Grand Trunk and Canadian Pacific roads had a pitched battle in the Railway Committe of the House of Commons to-day. The Canadian Pacific Company sought to get a charter to build a line from Lachine bridge to Dundee, there to connect with the American system. The Committee threw out the bill by a vote of 49 to 40, on the ground that the Grand Trunk had already obtained a charter over the same route.

Hotel Arrivals.

At the Clarence: C B Pollock, Rich Hill, Mo; G A Barnes, Olympia, W T; Jno E Burns, Tacoma; Dr Stansbury and wife, San Francisco; S Gray and daughter, Chemainus; N J Becar, New York.

At the Driard are reported: Mr and Mrs J T Murray, New York; Mr and Mrs C S Radcliffe, England; H G Merner, Michigan; E L Barker, L Wilson, England; W S Strong, Vancouver; Thos S Mayorbanks, Scotland; B T Williams, New York; Theo Drier and two daughters, New York; L Samuel, Portland; S Goldman, Portland; S Renaldo, San Francisco.

RAPID RAILWAY TRAVELLING.

NOTTINGHAM, May 21.—The London and Northwestern Railway Company, on the occasion of the opening of the Manchester Exhibition, took their Royal Highnesses the Prince and Princess of Wales from Manchester to London in the space of three hours and fifty-five minutes. It is stated to be the fastest journey between the two cities on record. But the performance is not one over which locomotive engineers are likely to grow exultant. The train was, of course, a very light one; the coal for the engines would be picked; and the line kept clear by a pilot. Moreover, the London and Northwestern track is as level as a billiard board. Now, the Midland runs trains over their heavy line, with the gradients of the Peak to contend against, between St. Pancras and the Central Station, Manchester, in 4 hours and 15 minutes. The distance between London and Manchester by the Midland is 191¼ miles, and the average speed of the ordinary expresses is nearly 48 miles per hour, although the ruling gradients are much against the engine. The Great Northern route is 203 miles, and the speed with easy gradients is about the same. The London and Northwestern route is the shortest, being 188¾, and the country traversed makes up for its commonplace character by its level plains. The express speed is 47.3 per hour.

Hall & Quackenbush, Vancouver, B.C., have the most complete list of business and suburban properties for sale at the terminus of the Canadian Pacific Railway. Price and terms to suit all parties. Inquiries by mail promptly answered. Refer to Bank of British Columbia.

NEWS BY CABLE.

Meeting of the British Cabinet--Davitt's Speeches Discussed.

The Evening of Gladstone's Life --The Ascot Races.

THE BRITISH CABINET.

LONDON, June 9.—The Cabinet held a meeting to-day lasting one hour and 50 minutes. Subjects discussed were speeches made by Michael Davitt in Ireland during the past fortnight in which he counselled the tenants to resist evictions by all means at their command. Also the report of Col. Sir Jos. Ridgeway on the progress of the Afghan Boundary Commission work.

THE TURF.

LONDON, June 9.—The weather at Ascot Heath to-day was brilliant and the races were largely attended by spectators, including a strong representation of royalty and crowds of aristocratic people. The race for the Gold Cup, value £1,000, was won by Bird of Freedom; Carasco, second; The Baron, third. Six horses started.

A SIMILE.

DUBLIN, June 9.—*United Ireland*, Parnell's organ, urges the Irish people to further patience. It denounces those men who advocate retaliation for the opposition of Irish people and says that such a course would not work. Parnell had accomplished during a decade of terrible years' work to which Gladstone is devoting the evening of his life.

WRECKED.

LONDON, June 9.—While a heavy fog was prevailing the British steamer Castleford, from Montreal, went ashore off Scilly Islands. She is in a bad position and it is believed will prove a total wreck. Salvers are at work on the cargo.

The German bark Elsa, from Wilmington, North Carolina, was picked up in the channel and towed to Dungeness where she sank. It is supposed she was damaged by a collision. Nothing is known of her crew.

THE CRIMES BILL.

LONDON, June 9.—In the Commons this afternoon Wm. H. Smith, government leader, gave notice that to-morrow he would move that a committee name the period at which they would report the Irish Crimes Act Amendment Bill to the House. This announcement was received with great cheers.

A PROSPECTIVE BIRTH.

LONDON, June 9.—The *Varstadt Zeitung* of St. Petersburg says that the Czarina and Princess of Wales will go to Vienna strictly *incognito* to attend the accouchement of the Duchess of Cumberland.

AN EARL DEAD.

LONDON, June 9.—The Earl of Winchelsea and Nottingham is dead, aged 72 years.

A VEXED QUESTION.

CONSTANTINOPLE, June 8.—Sir Henry Drummond-Wolff, special English representative in charge of the Egyptian question, and Sir Wm. A. White, of the English Embassy, discussed with the Ottoman Commission last evening the objection of Russia and France to an Anglo-Turkish convention relative to Egypt. The French and Russian ambassadors had declared in presenting the objections of their governments that the convention was contrary to the Sultan's sovereign rights. It is announced that the adhesion of the powers to the convention will be invited after it is ratified and that if any Powers fail to give their sanction within three years such will be regarded as constituting external danger to Egypt and British evacuation of the country will be postponed. The Porte will ratify the convention of Rairam festival.

AMERICAN NEWS.

WEST POINT CADETS.

WEST POINT, N. Y., June 9.—The examination and principal military exercises are over and there is nothing but graduating exercises in prospect for Saturday. The place is crowded with visitors and hotels are filled to overflowing. This morning the cadets built a spar-bridge and this afternoon a pontoon-bridge. To-morrow Secretary Endicott and General Sheridan will arrive, and it is expected that the President and Mrs. Cleveland will spend a few hours here Saturday morning. G. W. Childs, of the Philadelphia *Ledger*, will make the principal address on Saturday and short speeches will be made by Secretary Endicott and Gen. Sheridan. F. R. Shunk, of Pennsylvania, stands the highest in the graduating class. Mr. Childs has presented and had hung in the mess hall a full length portrait of Gen. Grant and the hall is now called Grant's Hall.

'FRISCO GRIEVANCES.

SAN FRANCISCO, June 8.—The Journeymen Fishermen's Union have made a demand on employers for a reduction of working hours from fifteen to eleven hours a day with Sunday off. As the employers refuse to accede to their demands a strike will be ordered on Monday evening. About sixty men will be affected by the strike.

The members of the Police Committee and Grand Jury to-day commenced an investigation into the conduct of the Police Department. Chief Crowley has ordered that the Committee be given every facility during the investigation.

BOTH CAPTAINS CENSURED.

NEW YORK, June 9.—A decision of the Naval Court given to-day in the matter to inquire into the causes of the collision between the steamships Celtic and Britannic the Court very severely censured Captain Ferry of the Brittanic for running at such a speed and for not giving distinctive whistles to the Celtic to show which way she gave way, and for not sounding the fog horn in the fog. Captain Irving, of the Celtic, is simply censured for running at a rate of speed he did in such foggy weather.

"BOSS" BUCKLEY'S BYES.

SAN FRANCISCO, June 9.—Christopher Buckley sent a cablegram to a friend in this city to-day from London stating that after consulting an eminent oculist he has been informed that his eyesight can be restored. He will go to Vienna to consult Prof. Vicherow before having the operation performed.

INDIAN TROUBLES.

WASHINGTON, June 9.—No information has been received at the War Department in regard to the recent outbreak in Arizona, beyond the fact that thirty Apaches have left their reservation and that Capt. Lawton is in pursuit with four troops of cavalry.

—Balbriggan Underwear at Jeffree's.

KAMLOOPS' ASSIZES.

Cases Already Tried--Sentences Pronounced--Grand Jury's Report and the Judge's Reply.

KAMLOOPS, June 7.—The assizes were opened yesterday at 10 a. m., by Hon. Mr. Justice Walkem. Several indictments were placed before the Grand Jury, of which Mr. Ridley was the elected foreman. Three of four true bills were found, out of about eight preferred.

Two Chinese were tried yesterday for burglary at Granite Creek; one pleaded guilty to the charge and was sentenced to three years in the penitentiary; the other was tried and found guilty of being a receiver of some of the goods and was awarded twelve months with hard labor. Ashnola George got off on a charge of manslaughter, but to-day was convicted of shooting one Shuttleworth last fall with intent to murder him. He was sentenced to seven years penal servitude. George was the man who defied the authorities and eluded capture for several months. He had been carrying two large revolvers in his belt when he met, quarrelled with and shot Shuttleworth. He was defended by Mr. McColl, of New Westminster.

Several County Court cases were disposed of up to the hour of adjournment this evening.

GRAND JURY'S REPORT.

Before the adjournment the Grand Jury presented the following report:

The Honorable Mr. Justice Walkem—May it please Your Lordship:

We, your Grand Jury, while being pleased to see your lordship among us, regret that the calendar, though not extensive, contains cases of the very gravest character and we would wish to call your lordship's attention to the fact that in some cases crime is unpunished through an insufficiency of officers in this and outlying districts; and anything that your lordship can do to remedy this would, we feel, be an advantage to the community at large, and in respect thereto we would suggest the name of one place where, in our opinion, a constable should be placed, viz.: Ashcroft. And further, would suggest that a stipendiary magistrate and gold commissioner be placed at Kamloops, who would visit the outlying districts at stated periods, more especially as mines are being developed in Nicola and other sections.

We would respectfully direct your attention to the state of the roads generally throughout the country and in particular would mention that the Canadian Pacific Railway Company should be asked to place culverts under their railroad to prevent water accumulating in the streets of Kamloops.

With reference to your Lordship's remarks respecting the loss of cattle during the past winter, we would submit that we fully concur in your Lordship's opinion, and that it is highly advisable that stock raisers should provide more fodder and shelter for their herds than they have done hitherto, and that some legislation in this direction is greatly needed.

In accordance with the usual custom, we have visited the gaol and find the accommodation is very insufficient, and also would call attention to the insecurity of the yard in which the prisoners are; in other respects it is in good order and appears clean and well kept.

We have also to recommend that carpet or matting be placed on the floor and passages of the Court House in order that more quiet may prevail.

In conclusion we would wish that your Lordship could afford us more of your valuable presence, feeling assured that by so doing you would be conferring a favor on us all, more especially in view of the developments that are being made in this part of the country and also to the great esteem in which you are held throughout the community at large.

We remain your Lordship's obedient servants.

[Signed] H. O. M. RIDLEY, Foreman.
Kamloops, June 7th, 1887.

HIS LORDSHIP'S REPLY.

The learned Judge thanked the jury for the kind sentiments expressed towards him. He also acknowledged that Kamloops was his appointed district, and considered, therefore, that the jury was entitled to know his reasons for not remaining continuously in the district. He explained that much of his time had been employed in attending the three appeal courts, held each year in Victoria and also last year in holding Revision Courts. Outside of this, he had found too much time on his hands, and certainly nothing to fill it up in Kamloops. Preferring work to idleness, he occupied himself in Victoria almost daily by taking any judicial work placed before him. He could not imagine that the jury, or any of the community, would desire to see him in Kamloops doing nothing for a large portion of the year and thereby losing ground where he should be gaining that knowledge and experience which would tend to make his position a more useful one, as in the case of judges constantly employed. If there was work at any time to do here, he was always ready to do it, not only as a matter of duty, but of pleasure; and he hoped his explanations on the matter would be satisfactory. The recommendations made by the Grand Jury in other respects were eminently practical. With their observations, relating to the mismanagement of criminal matters in allowing murderers to escape, he was sorry that he was obliged to agree, and he hoped there would be a marked improvement in this connection and that the officers referred to would take warning from what had been said on the subject. He thanked the jury again, and stated that he could not discharged them until the business of the Assizes was over. The Court then adjourned till to-morrow.

POLICE COURT.

[Before E. Johnson, Q. C., P. M.]

Lottie, a Hydah Indian, drunkenness; pleaded guilty; sentence deferred for one day.

John Francis, charged with supplying an intoxicant to Mary, a Bella Coola Indian; fined $50 and costs; in default 3 months hard labor.

Convicted.

Geo. H. Miller has been found guilty of murder in the first degree, at Seattle, for the murder of J. M. Coleman and Wilbur Patten, near Seattle, 1886. The jury was out one hour and forty-five minutes and brought in a sealed verdict. This is the third trial.

The Place for Bargains.

J. Sehl has just opened, in addition to his well assorted stock of Furniture, Carpets, Oil Cloth and Linoleum, a complete line of Crockery, Glassware, Lamps, and Bar Glasses, the finest ever offered in the country, at remarkably low prices, having arrived before the advance in freight rates.

OUR OCEAN STEAMERS

The Line of the Canadian Pacific to the Orient.

Quick Time and Moderate Rates to and from Hongkong.

Mr. T. R. Wheelock, an English gentleman who for twenty years has made Shanghai his home, to a San Francisco *Chronicle* reporter last Thursday gave the following particulars relative to the British Columbia-Hongkong trade:

He said the steamers now *en route* formerly belonged to the Cunard line of Royal Mail steamers, and were sold by it, or rather handed over to John Elder & Co., the great Clyde ship-builders, in part payment for the company's two splendid ships, the Umbria and the Etruria.

It was, however, a moot point, whether they belong to Wm. Pierce, the head of the firm of Elder & Co., or whether he is simply running them to suit the requirements of such a line, or whether he has leased them, I cannot positively state. They have, however, been altered considerably, and will be the finest now on the Pacific ocean. The Abyssinia and the Parthia have had new triple expansion engines put in, which has, of course, increased their speed very much. The Batavia is a fast boat as she is, and then all the internal fittings are new, so that they are the acme of comfort as well as speed. All the work was done by J. Elder of Glasgow.

THEIR ROUTE

will be Hongkong, Kobe, Yokohama and Vancouver. The Canadian Pacific Railway Steamship Company estimates that with these fast steamers it will make the trip in nineteen days. Now, the Gaelic, in which he came from Shanghai, took four and a half days from Hongkong to Yokohama and sixteen days seventeen hours from there to San Francisco, making over twenty-one days in all, which is a longer trip than the one to Vancouver.

The Abyssinia left Sydney on April 16th with a cargo of coal and proceeded to Shanghai and thence to Hongkong, and before she was in sight of Shanghai every cabin berth was booked. Before I left Shanghai every berth in the Parthia was also booked, and she will only sail on the 30th of June.

THE CHINESE TRADE.

In answer to the question if the Chinese will avail themselves of the Canadian Pacific line, Mr. Wheelock said that would depend upon the action of the Canadians toward the Chinese. At present they don't seem to have made up their minds for restriction yet. Possibly the Canadian Pacific will run a line of steamers down to San Francisco; it will only take three or four days, and time is no question with the Chinese. The new line will bring them across $5 cheaper, and that is all the Chinese want. There never has been a line to Vancouver before now; instead of clipper ships, laden with tea from China and Japan, it will all come by steamer, and the Canadian Pacific trunk line will help to whirl the across in no time to London. The bulk of the cargo of these vessels from Hongkong and Yokohama, I suppose, will be principally tea, and the return journey will in time doubtless carry Canadian products. Vancouver will become a large port—

A REGULAR LIVERPOOL OF THE NORTH.

Mr. Wheelock thought the Pacific Mail Steamship Company will find that it has a strong competitor, not because the comforts and accommodation of the older line are not of the best, but because the customs officials treat a man so badly. They make you open your baggage yourself, not like in other ports, where you have a porter to do it, he continued. Then they throw a fellow's thing about in the dirt of a dirty dock-shed floor. The wind whistles through the open gates and a fellow has to scramble about on his knees almost, gathering up his belongings and stowing them back in his trunks. They make you declare what you have, and I think it is outrageous. They turn round and search your things as though you had lied to them. They haul every bit of a thing out and charge you for it. It is outrageous. I'll never pass through this port again. I would rather go round the Horn.

AT HONGKONG.

The steamers will be berthed alongside the new wharves of the Kow Long Wharf Company. These wharves are a great improvement on the old ones, and the present owners have amalgamated their interests with those of Mathison, Jardine & Co., Hongkong, will be considered the starting point of the line and the mails from Shanghai will be carried by the Nippon Guseu Kisahia Company to Hongkong. Yokohama will merely be a port of call. It has no wharves to speak of. Vancouver will doubtless have large warehouses and good wharves built as occasion demands. Tickets through to London from Hongkong can be had at considerably cheaper rates via Vancouver and the Canadian Pacific line than via San Francisco.

NOT TRUE.

TO THE EDITOR OF THE TIMES:

SIR,—Coun. Braden in his remarks last night in the Council stated that Mr. Heedry got me to write anonymous letters against him (Coun. Braden) and that I had told him I had written the letter. I deny both statements. Mr. Hendry or anyone else did not know anything of the letter, "Game of the Five Councillors." I wrote on the present Council; neither did Mr. Hendry or anyone else, either by suggestion or insinuation, or in any other way indicate their wish to have such a letter written. As for Coun. Braden's last statement that I had told him I had written the letter, I have only to say that we have never uttered a word to each other since the letter appeared in THE TIMES; consequently either his memory is at fault or he willfully states what is not true. As to his other remarks I leave him to be judged by the public and by his records. W. A. BOGGETT.

Acknowledged Everywhere

That Johnston & Murphy are the best manufacturers of Men's Fine Boots and Shoes on the American continent. A large supply for the present season just received by their agent—see them.

THE LIBERAL LEADER.

In reference to the condition of the Hon. EDWARD BLAKE and his physicians' orders that he abstain from parliamentary work for the rest of the session, the *Globe* of the 3rd inst. says that "it would probably be a mistake to elect a leader pro tem. for that would convey the impression to the country that BLAKE'S retirement was likely to continue over another session. There is no reason so far as we know to fear that his health is permanently impaired, and no doubt he will head the Liberal party for many years to come. At present the absorbing thought is that the great chief of the party is prostrated in consequence of strenuous devotion to service of the people. It goes without saying that they will universally share our great regret and give heartfelt prayers for his early restoration to complete health."

COLONIAL AND INDIAN EXHIBITION.

The Department of Agriculture has issued a small blue book, containing extracts from British and Colonial journals on the Canadian exhibit at the Colonial and Indian Exhibition last year. We find in that book that British Columbia is prominently named for the excellence of her exhibits. The advantage to Canada derivable from such a "revelation" of her capabilities, progress and resources, cannot be over estimated. The exhibits from all parts of the Dominion, as compared with those of the rest of the Empire, demonstrated the fact that Canada is not a frozen region that many, even within her own borders, would make her appear to be—a land fit only for toboggans and a fur-clad people living beneath snow drifts. The exhibition convinced the world that the Dominion is the home of an enterprising people, whose industries have attained a high degree of development. The Dominion's splendid exhibit of fruit, in which was observed a large collection from British Columbia, embraced apples, pears, plums, grapes and peaches, all grown in the open air, completely surprise the most skeptical, and convince them that Canada's climate is very far indeed from being one of arctic severity. In the collection of minerals, timber and the products of the farm, it was shown that resources of Canada are as varied as they are vast. It is not surprising then to hear it from all sides that an examination of the Canadian court dispelled the false impression which visitors had of Canada, and unfolded to them new ideas as to our immense importance to the Empire. From a cursory glance at this blue book it is observed that the British press did ample justice to the Dominion, for the exhibits have been faithfully and fully described, not only in the provincial, but also in the great metropolitan journals, many of which devoted lengthy articles to the subject. Hereafter there need be no complaint regarding the Englishman's ignorance of Canada, its climate and resources. Colonists in Australia, New Zealand, Africa and the people of the Indies, through the Colonial Exhibition, have been taught that Canada enjoys advantages peculiar to herself, fully equal in importance to any those distant and remote portions of the realm have to offer.

THE New York *World* has been interviewing a number of prominent Canadians on the question of "Commercial Union." Sir John among the number. The premier declared it "out of the question," and appears disposed to belittle the importance of the movement, saying that there has been no voice in its favor from the farmers. The statement, whether made by Sir John, or wrongfully credited to him by the interviewer, is not correct; but even if it were, would not necessarily imply the failure of the agitation, which is just beginning. It takes a long time to reach the agricultural population, but when once indoctrinated with an idea they are apt to hold it far more tenaciously than city people, with whom one sensation soon succeeds another.

In certain quarters an effort has been made to belittle the bill introduced by Senator McInnes, of New Westminster, relative to the conveyance of legislators and judges free of charge over railways. At first glance to many it may appear that the idea was merely a selfish one, framed for the purpose of allowing legislators to secure dead-head passes on railways. That, it is claimed, is not the object Senator McInnes has in view; he wants to put an end to a very improper practice at present in vogue: that of railways supplying passes to members in the hope of being recompensed indirectly by their aiding in passing favorable legislation. The abuse thus complained of the Senator proposes to rectify, and that can only be done in one of two ways: Either adopt the scheme proposed by Senator McInnes, or declare it a misdemeanor for any railway company to issue passes to members of Parliament.

CITY COUNCIL.

The Water Works Question Advances Another Stage.

The regular weekly meeting of the City Council was held last night in the City Hall. Present: Mayor Fell and Couns. Grant, Styles, Harris, Pearse, Higgins, Vigelius and Coughlan.

COMMUNICATIONS.

From C. J. Phillips, chief engineer, protesting against the use of the fire engine for pumping water to the high levels. Received and filed.

From F. W. Pope-Cox, in reference to his proposition for the running of the electric light and stringing wire on the city poles for private lighting, and asking for a reply.

Coun. Grant said it was hoped that a report would be made at no early day.

Letter received and referred to committee.

From Capt. Geo. Radlin, asking to have the rock removed from the east side of George street and a sidewalk erected. Referred to Street Committee with power to act.

From M. W. T. Drake, acknowledging receipt of letter in reference to removal of sidewalks opposite lot 109, Humboldt street, and accepting proposal made. Referred to Street Committee.

From John Cleed, Jr., calling attention to his great need of water. Referred to the Water Committee.

From H. T. Bishop calling attention to the unsafe condition of the grade for a sidewalk opposite his property. Referred to Street Committee.

From M. Bantley, asking for a supply of water to his house in the Work estate. Referred to the Water Committee.

From A. Ofner, calling attention to the impassable state of Church-way, owing to the stoppage of corporation work there. Referred to Street Committee.

Coun. Higgins said this work had been stopped awaiting the money promised by the private owners. Nearly $100 had already been spent by the Council.

From W. Boad, asking for use of street while removing building. Granted.

From nine residents in Rock Bay avenue, asking for the construction of sidewalks. Referred to Street Committee.

From six ratepayers on Superior street, asking for a sidewalk. Referred to the Street Committee.

From J. D. Pemberton, asking for permission to make a crossing over the sidewalk for hauling manure. Granted.

BY-LAW.

Coun. Grant moved the first reading of a by-law for the return and revision of the assessment roll 1887. Carried and by-law read a first time.

WHO OWNS IT?

The Fire Wardens, in regard to the furniture about which there was a dispute, reported that it belonged to the company and not to the council. Report adopted. Messrs. Wrigleworth and others to be notified of the decision of the council.

THE STREETS.

The Street Committee reported, recommending that a sidewalk be laid on Beechy street, from Rupert to Vancouver; that a sidewalk be laid on St. Lawrence street, from Kingston street to Michigan street; that the petition of J. N. Muir to take the earth from the rock on McClure street be not granted; that a box drain be laid on the south side of Fort street, between Douglas and Blanchard; also a box drain from the corner of Cook and Meares streets to Fort. The report was adopted.

OPEN DRAIN.

Coun. Harris called attention to an open drain at the corner of Discovery and Douglas streets, which required immediate repair.

DIVIDED AUTHORITY.

Coun. Braden, as chairman of the Sanitary Committee, said he would like to know if he had any right to hire a man to do work that he found necessary. He had hired one, and Mr. Dewsnap discharged him, and when he put him on again the Street Committee discharged him. It was necessary to have a second man.

Coun. Styles said Coun. Braden had asked for a second man and got him; and when the Council resolved to cut down the number of men at work this man had to be taken off.

Coun. Higgins said there was no intention of reflecting on the Sanitary Committee, and hoped Coun. Braden would be satisfied with the explanation.

AN AWNING QUESTION.

Coun. Higgins brought up Mr. O'Reilly's awnings, and moved that permission be granted to that gentleman to put them up. Douglas street was a wide street and the awnings would do no harm.

Mayor Fell said the Council had no power.

Couns. Harris and Braden were in favor of granting Mr. O'Reilly's request.

Coun. Grant thought the question should be referred to a committee. If the by-law gives Mr. O'Reilly the power to erect the awning, he can put them up without consent, and if it does not it would be making an invidious distinction.

Coun. Pearse moved, in amendment that the matter be referred to the Street Committee and City Barrister, which was carried.

TRESPASS.

Coun. Pearse moved that the City Clerk be authorized to notify the owner of lot 352, Humboldt street, that he has encroached on Humboldt street, and that the city reserves all rights. Seconded and carried.

THE WATER-WORKS.

Coun. Grant asked for information on the reservoir question.

Coun. Pearse explained that the committee had had an informal conference with Mr. Bell, who had stated verbally that by a modification of Hendry's scheme a very large additional amount of water would be brought into the city. He proposed to cut the main on Douglas street and pump directly into a large reservoir, the whole to cost $75,000. In addition new filtering beds, at a cost of $50,000, would be required, besides an annual charge for working expenses of $4,500. There is no doubt that, looking to the future, Mr. Bell's scheme was a good one, but it would cost about $200,000, whereas Hendry's would cost $75,000.

Coun. Coughlan said that up to the present time we had no scheme before us. The Water Committee had seriously retarded the business, and all that we had was a partial report from Mr. Bell, which was no doubt incorrect in several respects. He moved that a special meeting be called on Monday next to give the Water Committee and Mr. Bell a chance to bring in a full report on the present scheme.

Coun. Grant said Coun. Coughlan was a chronic grumbler on this question.

Coun. Braden seconded the motion. He advocated a second main if the lake would supply two. It could be put down at a cost of $10,000 less than the present scheme.

Coun. Pearse proposed that Coun. Braden be appointed chief engineer to the Water Committee.

Coun. Grant pointed out that Coun. Coughlan was incorrect when he said that the Water Committee brought in no report, and called attention to reports presented at late meetings. Mr. Bell, he thought, should have an opportunity of committing his proposition to paper. Had it been presented to the ratepayers some time ago it was possible it might have been adopted, but under present circumstances and for some years to come the reservoirs would very probably be the better plan.

The clerk read the last report of the Water Committee, and in reply to Coun. Coughlan, Coun. Pearse said there were two reasons—spleen against Hendry and the question of contract vs. day labor—why this work had not been gone on with. He reviewed again the several steps that had been taken and expressed his desire to go on with the work in any way the Council should determine.

Coun. Higgins disclaimed any personal feeling against Mr. Hendry, but was actuated by the belief that the scheme was not the best for the city. Mr. Bell had informed them that the excavation for the reservoir was seven feet lower now than was necessary. He was in favor of the contract system for all large works.

Coun. Grant corrected Coun. Higgins. It was not true, as that gentleman had stated, that the excavation was seven feet too low.

Coun. Harris thought it was advisable, before going hastily into the work, to get a report from Mr. Bell. At one time he was of opinion that a second main would be best, but he had changed now his mind in that respect.

Coun. Braden repudiated the charge that he was influenced by personal feeling against Mr. Hendry. He had never tried to do that man any harm although he (Hendry) had attempted to take away his license.

Mayor Fell advocated the reservoir scheme as endorsed by Mr. Pickering.

After considerable discussion, and an animated dialogue between the Mayor and Coun. Braden as to the veracity of the latter on the question of the authorship of a letter said to have been written by ex-Coun. Robertson, Coun. Coughlan's motion was carried, and the council adjourned until Monday evening next.

Astonishing Success.

It is the duty of every person who has used *Boschee's German Syrup* to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the *German Syrup* cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada. *

"DOMESTIC."

ITS CLAIM.

The "Domestic" is the best Sewing Machine ever made. It is best in plan and design, giving superior results in practical work; best in workmanship, the fitting, finishing and hardening of the working parts being most careful and exact; without the useless polishing of prominent non-wearing parts for the purpose of catching the eye. It has the best wood-work ever used on any sewing machine. No other sewing machine can show as good a record.

These facts are recognized

By its competitors everywhere in their endeavor to secure patronage by claiming equal or like degrees and qualities of merit.

"The best is always the cheapest," and the "Domestic" has proven itself to be the best.

At the Sixty-first Annual General Meeting of the

STANDARD Life Assurance Co.

Held at Edinburgh on Tuesday, the 26th of April, 1887, the following Results for the Year ended 15th November, 1886, were reported:

2593 New Proposals for Life Assurance were received during the year for ..... $ 6,608,660

2293 Proposals were Accepted, assuring .... $ 5,734,729

The Total Existing Assurances in force at November 15, 1886, amounted to $99,607,745

The Claims By Death or Matured Endowments which arose during the year amounted, including Bonus Additions, to $ 2,937,086

The Annual Revenue amounted, at 15th Nov., 1886, to ..... $ 4,403,150

The Accumulated Funds at the same date amounted to $32,589,266

Being an increase during the year of ..... $ 503,461

The foregoing interesting facts in connection with the operations of the Standard Life Assurance Company during 1886 commend themselves not only to the numerous body of policy holders within the province, but to those who contemplate assurance. The enormous financial strength of this old-established institution, the liberal conditions of its Policies, the large periodical distribution of bonuses to its Policy holders, and the numerous facilities afforded for assurance both by Endowment or Whole Life Assurance, all combine in placing the Standard in the first rank of Life Assurance Companies.

The Local Board of Directors at Victoria have full power to accept Proposals, issue Policies, and settle claims. Full particulars and rates for Assurance can be procured from the Agents and Secretaries to the Board.

The Monkeys' Festival.

At the present time it is no longer possible to doubt that monkeys hold veritable and numerously attended festivals that resemble those that the negroes of Africa, the Hottentots and the Papuas of New Guinea celebrate to the sound of the tom-tom on moonlight nights, most frequently, however, at the time the new moon makes its appearance. The monkeys (cebicus) of South America assemble in the same manner when, having exhausted the resources of one place, they get ready to emigrate to another. They jump, gambol and shout with all their might, the males running on the trees and the mothers carrying their children on their backs or in their arms.

Duvancel witnessed near Desbund, in India, a grand reunion of sacred monkeys (semnopitheous entellus), which is repeated regularly, the inhabitants say, after a certain number of years. There were several thousand of them, which had come in large bands from different directions. Each marched with a stick in its hand; but when they arrived at the place of the festival they threw all the sticks on the same spot, and made of them an immense heap.

The festive gatherings of the black chimpanzees of Africa are still more closely related to those of the negroes. Sometimes fifty or so of them come together, and jump, yell, and using dry chunks of wood as tom-toms, beat on them with drum sticks, which they hold in their hands and feet.

This orchestra of quadrumanes is the first attempt at music, and what is remarkable, the music is of the rudimentary form of the drum, which everywhere among the most savage and inferior races of the human family, is the first musical instrument also, and the only one that many of them possess.—Henry Howard in The Cosmopolitan.

Heading Straight for India.

The monotony of life on the Afghan frontier was the other day pleasantly interrupted by the arrival of two strangers at the camp of the frontier commission. One of them was a native horseman, beside whom, in somewhat shabby European apparel, walked a stalwart pedestrian. A few questions brought out the story of the latter, which deserves to be preserved as an example of the endeavors of one of the great unemployed to find some work to do. The man, a German by birth, had walked from central Germany through Russia and Bokhara, heading straight for India, where he hoped to find permanent employment. Without money, without a passport, without speaking but his own tongue, he arrived at the Afghan frontier, having been compelled to abandon his straight line of march by the deep snow on the Hindoo Koosh. The commissioners, after providing the man with food and clothes, sent him on his way rejoicing, confident that, after going round Afghanistan, which is a closed door to travelers, he will reach his destination.—Boston Transcript.

Houses in Rio Janeiro.

Is Rio built of wood, or brick, or of marble? Neither, it is, however, massively built. The walls of the buildings are concrete, formed of split stone, mortar, and an occasional layer of brick, are usually two feet thick, and in some of the older buildings are even thicker. The color of the walls is frequently white, sometimes a brilliant blue, olive green, or a light red. The roofs, four sided, of the hip style, are all covered with thick, red, oval tiles, and, there being no chimneys, their aspect is dull. To relieve this, the more genteel houses have either a balustrade or stuccoed wall around the roofs, with statues, vases or other figures on the corners. The stories and windows are high. Balconies are common, with smooth granite bottoms, sculptured underneath, being composed of large blocks extending through the thickness of the wall, and lending strength as well as ornament to the edifice.

The windows in the modern buildings open door fashion, and are well adapted to the climate. They are very securely fastened at top and bottom by simply the turn of the handle of an iron bolt. Windows in the lower stories have strong wooden folding shutters inside. In chamber windows the glass part opens inward on hinges, with blinds opening outward. The trimmings, such as window caps, door and window facings, are of smooth granite—the handsome black and white granite so abundant at Rio—often perfectly arched, and lend an aspect of durability as well as of ornament to the building. The foundation walls to the height of two feet or more are of granite. In some of the stuccoed buildings almost too much expense seems to have been devoted to outside show. Many houses are in imitation of reddish marble, and very handsome. Some of the inside shutters, of black walnut, or of those painted white, with gilt borders, show to advantage through windows of plate glass. There is not much display of curtains. The front sides of some of the older buildings are wholly or partly covered with flat porcelain tiles, generally of blue color, also like what may be seen in Lisbon.—Andrews' Brazil.

How We Taste.

Strictly speaking, with the tip of the tongue, one can't really taste at all. If you put a small drop of honey or oil of bitter almonds on that part of the mouth, you will find, no doubt to your surprise, that it produces no effect of any sort; you only taste it when it begins slowly to diffuse itself, and reaches the true tasting region in the middle distance. But if you put a little cayenne or mustard on the same part you will find that it bites you immediately—the experiment should be tried sparingly—while if you put it lower down in the mouth you will swallow it almost without noticing the pungency of the stimulant. The reason is that the tip of the tongue is supplied only with the nerves, which are really nerves of touch, not nerves of taste proper; they belong to a totally different main branch, and they go to a different center in the brain, together with the very similar threads which supply the nerve of smell for mustard and pepper. That is why the smell and taste of these pungent substances are so much alike as everybody must have noticed, a good sniff at a mustard pot producing almost the same irritating effects as an incautious mouthful.—Journal of Commerce.

The Stewart Collection.

How this old world does travel, to be sure! Here is the Stewart collection, believed to be the finest private gallery in the country, pronounced by Munkacsy as containing few great pictures, and even those by the great artists not good examples of their work. So much for fashion, and more for critical knowledge.—Chicago Herald.

From six to ten Americans are said to visit Pasteur every day for treatment, many of whom have been bitten by their pet dogs.

Der poorhouse vhas full of peoples who pelief dot to-morrow vhill bring 'em luck."—Carl Dunder in Detroit Free Press.

EXPLORERS SURPRISED.

Remarkable Discoveries That Some of Them Have Made Not Long Ago.

It happens now and then that an explorer makes a sensational and wholly unexpected discovery. Several unique facts with regard to certain tribes of savages have recently been ascertained. Mr. W. Montagu Kerr, for instance, has found among the Makorikori tribe in Africa, whom he is the first to describe, gunpowder which they make themselves for use in the flint-lock muskets which they obtain from native traders.

The tribes live far from the East coast and quite a distance south of the Zambesi river. The gunpowder burns slowly, and its explosive force is far inferior to that of ours, but it answers their purpose very well. They mix the efflorescence of saltpeter with charcoal, which they make from the bark of the mufati tree. This mixture is baked in an earthern pot for several hours, and then it is pulverized and spread in the sunlight, where it is left for some time. It is not at all likely that the Makorikoris, like the Chinese, discovered the art of making gunpowder. Their fathers doubtless learned it from the Portuguese or from slaves who had lived among white men on the coast. We hear strange things once in a while of African tribes, but it was hardly to be expected that a wholly unknown tribe, hemmed in by the mountains of inner Africa, would be found engaged in the manufacture of gunpowder.

A few years ago Lieutenant Wissmann came home and told a remarkable story about tribes he had met with south of the Congo river, who were far more civilized than most African peoples. His report is now fully confirmed by the travels in the same region of Lieutenants Kund and Tappenbeck. They found last year, between the Congo and the Saukuru rivers, many street villages, with large, gable-roofed huts standing squarely on either side of the street, inhabited by brownish-red, fine-looking people. These villagers have advanced notions of comfort. They sleep on wooden beds, instead of on the floor. Their homes are the largest yet found in Africa, and are kept clean. Their streets are about fifty yards wide, sometimes two or three miles long, and are carefully swept. Refuse of all sorts is taken away and thrown into pits dug for the purpose. They are clever hunters, and train their dogs to follow game. They carve pestles out of ivory for pounding manioc, and they have astonishing skill as wood carvers. Lieutenant Kund brought home two wooden cups, representing negro heads, which might readily be taken for European products, owing to their superior workmanship. Behind the houses of this populous Zenge tribe are neatly-kept gardens and plantations of bananas.

When Lieutenant Holm visited an isolated settlement of East Greenlanders two years ago he was astonished to find among these natives, of whom the world had never heard, walrus spears of which the handles were made of wood, although no timber grew there, and the points of hoop-iron. He ascertained that the sea currents had brought the useful commodities to the poor Eskimos in the shape of wreckage and iron-bound boxes.

It has recently been shown that in parts of Chili where European trees and plants have been introduced the native flora is actually disappearing and the imported vegetation is flourishing in its place. Explorers are often surprised to see the familiar plants and fruits of other regions growing as exotics where they did not dream of finding them. Kerr discovered the tomato in the far interior of Africa, and Schweinfurth was much astonished to find tobacco in the heart of the continent, where it was raised and enjoyed by natives who had never heard of its American home, though the name by which the weed was known among some tribes was doubtless derived from our name for it.—*N. Y. Sun.*

The Paradise of the Poor.

We had been told that there was not a poor person in Costa Rica, and had, of course, received this with mental reservations; but we were convinced of the possible truth of the statement in a somewhat amusing manner. The governor, expressing some dissatisfaction at the slow progress of the works, was answered by the chief master workman with an easy flow of words and many emphatic gestures. The matter was simply that the men were all able to live without over exerting themselves, nearly every one of them owning a bit of ground, a horse, a wagon and a mule, and also a carefully secreted stocking with a handful of bright pesos.—Cor. Detroit Free Press.

What a Miner Has Noticed.

An old Ruby Hill miner, who has had fifteen years' experience underground, says that he has observed one peculiar fact, that between 12 and 2 o'clock at night, if there is a loose stone or a bit of earth in the mine it is sure to fall. About this time it seems that everything begins to stir; and immediately after 12, although the mine has been still as a tomb before, you will hear particles of rock and earth come tumbling down, and if there is a caving piece of ground in the mine it is sure to give way.—Home Journal.

A Cure for Insomnia.

Sleeping without the head covered is said to be one of the causes of insomnia, which has of late years become a very general malady. Some find a cure by tying a large handkerchief tightly around the temples under the ears in a small knot at the back of the head. The knot may be adopted or not according to the wearer's comfort or fancy. The bandage gives the required pressure on the outer surface of the head, the lack of which is one cause of sleeplessness.—Public Opinion.

Departure in Paper Manufacture.

It is understood that a very important new departure has been made in the paper manufacture, by the erection of works in the neighborhood of London for the utilization for that purpose of stable manure, etc. The results obtained in this process are said to be so satisfactory that, after due provision has been made for the value of the chemical products of the materials employed, the cost of producing the paper is next to nothing.—Industries.

Farmers and Farm Products.

Only 29 per cent. of the population of Pennsylvania are farmers, and her lands were returned in 1880 at $40 per acre, and the average general product of each farm worker was $400. Georgia has 75 per cent. of her population on the farms, and her farming lands average $4 per acre, and the average of farm labor is $140 per annum.—Chicago Times.

To Make Papier Mache.

To make papier mache for fine, small work, bon clippings of brown or white paper in water, beat them into a paste, add glue or gum and size, and press into oil molds.

—No need of spoiling your hands or injuring your finest fabrics, if you will use Pendray & Co.'s "QUEEN JUBILEE SOAP."

—The first child baptised in St. John's Episcopal Church, Vancouver, was the son of Dr. and Mrs. Beckingsale, last Sunday.

—Hans Bong, a Portland druggist, who recently fraudulently obtained a divorce from his wife, left that city a few days ago and is said to be here.

—CLEAR THE TRACK—Give Pendray & Co.'s QUEEN JUBILEE SOAP a show; it is the best ever offered to the public as a laundry and toilet soap combined; try it. *

—Water is so scarce in Vancouver that the C. P. R. Company are compelled to carry supplies in their tanks from up the line, a distance of seven miles.

—The Queen City Band will play a fine selection of music at the Victoria Gardens on Sunday afternoon from 2 till 7 o'clock. *

—A well selected stock of ENGLISH WALKING STICKS, LAWN TENNIS goods and Spalding BASE BALL GOODS, at J. BANNERLEY'S, Fort street, near Douglas. *

—The Dominion steamer Sir James Douglas sailed out of the harbor at 1.20 this afternoon on marine department business.

—Messrs. E. A. McFarland & Co., Vancouver, are now turning out from 15,000 to 20,000 bricks per day from their yard on the north arm of Burrard Inlet.

—Tomb and Headstones, Monuments, in Marble, imported and local Granite, Mantle pieces and Wash Stands in Marble, artistically executed, and at reasonable rates, at George Rudge's Marble Works, Douglas street, Victoria. Call and see specimens of work. *

—Call and see our fine mouldings, all latest patterns, steel engravings and latest pictures. We make a specialty of mounting pictures, Jos. SOMMERS, Government St. *

—D. R. MUNRO, General S. S. Agent for Cunard, Guion, Albany, Dominion, Inman and all S. S. Co.'s. Prepaid passages at most favorable rates. Every berth secured on sale. *

—NEW ARRIVALS—Gents' English leggings in great variety; also DAY & MARTIN'S celebrated blacking, in tins and bottles, at Erskine's Boot and Shoe Emporium, corner Government and Johnson St.

—Dr. A. C. West, dentist, will for the present occupy dental rooms in Hastings Photographic buildings, Fort street, where his old patrons and all requiring fine dental work, are respectfully invited to call. *

—No word yet has been received of the apprehension of Frank Spencer, the Kamloops murderer, who is supposed to be lurking somewhere near the boundary. Supt. Roycraft is said to be after him, and expects to be able to capture him near the borders.

—Island strawberries as large as good sized eggs, thick Jersey cream and sugar, with other dainties, are the leading attractions at the Oriental Hotel Restaurant to-day. The very thought of such fare makes the guests of the hotels less favored envious of the good fortune of the treatment Mrs. McKeon showers upon her guests.

—Capt. Webber, the marine superintendent of the China steamers at Vancouver, has arrived in that city. Capt. Webber is well known to all who have traveled between Australia and San Francisco on the Royal Mail steamers; also to those who in former days took the Isthmus route, on which lines he commanded vessels for a number of years.

—The *News* is authority for the statement that work has begun on the Vancouver Water Works Co.'s scheme to bring water into the city from the Capilano, a surveying party having started out to make the preliminary surveys. They are under Messrs. H. B. Smith and C. L. McCammon, C. E.'s, and will cost per day for the party, $100. This looks like business.

The Daily Herald.

The Vancouver *Herald* issues a daily as well as a weekly edition. Several numbers of the daily have reached us. It is a spicy well gotten up sheet; receives the Associated Press dispatches, and in every respect is worthy the city of Vancouver and the patronge bestowed upon it. THE TIMES extends to the new candidate in the field of early journalism a cordial welcome and expresses the wish that the career of the *Herald* may be a long and useful one, and that success will crown its efforts.

Nanaimo Assizes.

NANAIMO, June 9.—The Grand Jury has brought in a true bill against Thos. Embleton for procuring abortion. This case was thrown out by two previous grand juries. Embleton is now out of the province.

A. McElvey, for perjury, is still on trial.

English Window Glass, 16 oz., all sizes; also Stained and Enamelled Glass, at Muirhead and Mann's Sash and Door Factory.

—Men's and Boys' Holland Coats, at Jeffree's. *

Tacoma's Jubilee.

Mr. J. E. Barnes, a member of the Tacoma Chamber of Commerce, and an ex officio member of the 4th of July celebration committee, is in the city to-day. He is here with the object of extending an invitation to the Mayor, Council, civic authorities, the press and the citizens generally to participate in the forthcoming celebration at the terminal city at the head of the Sound, which will extend over three days, viz.: the 4th, 5th and 6th of July. At noon to-day, in company with His Worship Mayor Fell, Mr. Barnes waited on Sir M. Culme-Seymour, of H. M. S. Triumph, and on behalf of the citizens of Tacoma extended to the Admiral and his officers an invitation to join in the festivities as the guests of that city. Already the sum of $10,000 has been subscribed wherewith to defray the expenses of the festivities, which will embrace aquatic and athletic sports, &c. Preparations have been made for the accommodation of 7,000 guests. The Tacomaites are bound to make their celebration of the 4th of July and the completion of the Northern Pacific Cascade Division a success in every respect. No doubt many from this Province will be present on that auspicious occasion.

New Instruments.

The C. P. R. telegraph office in this city was last night supplied with a new set of instruments throughout. The outfit includes a duplex, whereby a message can be received and forwarded over the same wire and at the same time. The other instruments are all of modern construction and adapted to the requirements of a large office and an extensive business. A new wire is to be erected between Victoria and Nanaimo. It is believed that the gulf cable is sufficient for a considerable increase in the business. With these additional facilities Mr. Archibald thinks the business will run with less friction and delays than he has had to encounter in the past.

Medical Council.

The Medical Council, having been in service since Tuesday, completed their work last evening. A large number of subjects of importance to the profession were discussed and action taken, together with the examination of candidates. The following gentlemen were admitted to register, after having passed a successful examination: Dr. Robertson, Vancouver; Dr. Duncan, Comox; Dr. Eberts, Wellington.

The next meeting of the Council will take place in the first week of November in the city of New Westminster.

The Mission En Fete.

To-day (Thursday) is a red letter day in the history of the Mission on the Fraser, half-way between Port Moody and Yale. The Indians of the Roman Catholic persuasion on the mainland have congregated at this spot in great numbers. Those on the lower Fraser, Westminster and Burrard Inlet were sent up by train, giving poor Lo his first experience of railroading. They are encamped on the bluff behind the railway track, in the vicinity of the Mission buildings. Bishop Durieu and a large number of clergymen are present.

The Jubilee.

Posters announcing the list of sports for the Jubilee celebration on the 21st and 22d have been issued. The sham fight will take place at Beacon Hill, commencing at 2 p. m. on the 21st. On the 22d the regatta will take place. Other sports, not yet announced, will be held. We presume the committee has sent a large lot of these posters up the Sound, and as far as Portland. There is certain to be a large number of visitors in the city if the posters are properly distributed.

Our School of Artillery.

It is rumored in Ottawa and Toronto that Lieut.-Col. Gray, ex-M. P. P., for West York, has received the appointment of commander of the new school of artillery to be established in this city. The appointment is said to be a good one, as the gallant colonel is an exceedingly popular officer in the east, where he is well known and personally esteemed. He will be cordially welcomed in Victoria.

Bank for Kamloops.

The interior capital is progressing metropolitan-wards. In a few days the Bank of British Columbia will open a branch in Kamloops. Mr. R. Lea-Barnes, who was paying teller in that bank in this city will be agent, with Mr. H. Tytler, as assistant. This will be a great boon to the people of the interior, especially to traders and others desiring banking facilities.

Bishop Fowler.

The Rev. Bishop C. H. Fowler, of San Francisco, one of the most eloquent pulpit orators of the Methodist Church, accompanied by his family, and Captain Goodall and family, of the P. C. S. S. Co., will visit Alaska on the Olympian sailing for the north next week.

To be Built.

Premier Norquay has called for tenders for the construction and equipment of the Victoria railway running through the Red River valley to the Manitoba boundary, a distance of 65 miles. It is expected that the line will be in operation by the 1st of November.

Just in Time for the Jubilee.

Ladies' fine kid pump sole boots, slippers and sandals for dancing, in great variety, from Saller, Lewin & Co., of Philadelphia. Bottom prices, at the B C Boot and Shoe Store, opposite post-office. H. MANSELL. *

The Barnard Castle.

This steamer, as she now lies on the bottom near Race Rocks, has been purchased by Mr. John Birmingham, of San Francisco, owner of the steamship Mexico, on private terms. She will be raised, repaired, and put into active service on a route not yet known.

B. C. STATIONERY & PRINTING CO.,
Next door to the Post Office.

—Boating Suits at Jeffree's. *

Mlle. Rhea.

This distinguished artiste, and charming woman, has always been a deservedly popular favorite. It is pretty certain that her farewell performances to be given here next week will witness crowded houses at the Victoria. Mlle. Rhea is drawing immense houses everywhere, and the success of her final American tour has shown her, if she did not know it before, what an extremely popular favorite she is with people on this side of the Atlantic. Her play to be produced here, "The Widow," is, judging from press opinions, one of the finest she has ever appeared in. Critics speak of her interpretation of the leading role in the drama as a masterpiece of artistic acting. They also say that Mlle. Rhea's costumes are something for the ladies to rave over. The opening night is set for Monday next in "Pygmalion and Galatea."

The Australian Trade.

Canada, says the Newcastle *Journal*, is seeking to monopolize, if possible, the Canadian trade. "Now that the Canadian Pacific Railroad is completed," says the Montreal *Star*, "Canadian merchants and manufacturers should be able to make enormous sales in Australia and the other islands of the Pacific." The argument is pushed still closer, however, for the writer goes on to say that "what is of the most interest is the fact that those Australian colonies annually purchase from the United Kingdom nearly $28,000,000 worth of manufactured goods. Canada is much nearer to Australia than England, and Canadians should be able to secure a large share of that enormous trade." No doubt some day a bargain will be struck between Canada and the Australasian colonies, if we do not make one in time. And what will be the use of Imperial Federation and big schemes of protection for our coaling stations and colonies, if the trade which alone makes them valuable is monopolised by others, even by our own Dominion of Canada?

The Kwong Lee Estate.

To-day Mr. George Byrnes closed out the balance of this estate by auction. There was a large attendance of purchasers and speculators. The bidding was brisk and fair prices were realised by Mr. Byrnes for the several parcels put up by him. Lot 445 and west half of lot 444 on Fisgard street was sold for $2,700; lot 438 and west ½ lot 439, Cormorant street, 4 brick buildings, for $20,200; lot 532, the eastern half, with brick building formerly occupied by Kwong Lee, Cormorant street, $5,000; lot 532, the western half, unoccupied, on Cormorant street, $2,400; lots 590, 588 and west half 589, on Cormorant street, lots 598, 597, 596, 595, covered with a lot of stores and tenements, for $25,000. The book accounts of Kwong Lee & Co., were knocked down for $4,000, making a total of $59,300. The previous sale on the 30th ult., realized $5,540; a grand total of $64,840.

The Kamloops Murderer.

Hector McLean returned to Kamloops on Sunday last from an unsuccessful pursuit after the murderer of Spencer. A cowboy brought in the news that he had met the murderer on the Similkameen river, making his way to the boundary line on foot and quite used up. He had lost his horse and sold his gun to a Siwash for $5. The cowboy affirms McLean was only ten miles behind him when he turned back. Supt. Roycraft, who was in Kamloops when McLean returned, organized another party, which started right away, and with the information they now possess it is thought they will be successful.

The Onderdonk Contract.

The last of Mr. Onderdonk and his C. P. R. contract in this province has not been heard of. In the committee on public accounts, Ottawa, on the 31st ultimo, Mr. Trudeau was examined in regard to the purchase of Mr. Onderdonk's machinery in this province. No information of public consequence could be gleaned from Mr. Trudeau, and it was decided to summon and examine Mr. Collingwood Schrieber, the Government Supt. of Railways.

New Flouring Mill.

The Columbia Milling Co., Spallumcheen, have all the machinery on the ground and are fitting it up with all dispatch. They expect to be in a position to grind in about five weeks, and the whole of British Columbia may congratulate themselves upon having as fine a roller mill as Canada boasts. The capacity is 100 barrels per day, and it is generally acceded in the upper country that all the wheat they require to run the mill to its full capacity will be forthcoming.

Sham Battle.

The men of the batteries of the B. C. G. A. will parade at the drill shed, James Bay, at 4 o'clock next Saturday afternoon, and afterwards proceed to Macauley's Point to join the men of the navy in military manoeuvres preparatory for the forthcoming jubilee sham fight at Beacon Hill on the 21st. Spectators are cordially welcomed.

JERSEYS! JERSEYS! JERSEYS!—The latest styles received this day at the "Lansdowne House," Yates Street.

JOHN PARTRIDGE, Prop.

For the North.

The Barbara Boscowitz leaves for the North this evening. S. A. Spencer, Alert Bay; Reve Harrison and Guzd, of Massett and Metlakatlah, and "Frenchy" McKay are passengers. The freight is light, being principally material for the canneries.

Seriously Ill.

Mr. Joseph Spratt, of this city, is now lying dangerously ill at Harrison Springs. The services of Dr. McSwain were telegraphed for to-day who will leave at once for the bed of the invalid.

Drawing In.

From Ottawa comes the rumor that the banks and loan companies intend curtailing their operations in Manitoba and the Northwest. The new policy is attributed to the unsettled state of the country.

Jubilee Waltz.

The second lot of this beautiful waltz has just been received and is for sale at C. A. Lombard & Co.'s, next door to Hibben & Co. *

PERSONALS.

Mr. S. and Miss Nellie Gray, of Chemainus, are in the city and registered at the Clarence.

Mr. J. T. Murray, of the Pacific Bank, San Francisco, is in the city and a guest at the Driard.

Col. Lewis and Mr. Porte, of London, Ont., leave for the East to-morrow morning.

F. C. Ambridge, traveling auditor of the C. P. R., arrived from the Sound to-day.

Mr. A. Ofner purchased the $20,200 parcel; Mr. H. S. Mason the $25,000 parcel, and Chinese merchants were smaller purchasers.

Mr. Moses O'Connor leaves for Cape Town, Natal, Africa, to-morrow morning *via* the C. P. R. and the Guion line from New York.

Mr. Barnes, one of Olympia's solid men, a banker, is in the city to-day. He is perfectly charmed with Victoria, her streets, magnificent drives in the country and our surroundings generally.

Mr. Stewart Brown, Manager of the Glasgow and London Insurance Company, Montreal, is on his way to this city on business in connection with his company. It is reported a branch agency is to be opened in Vancouver.

Miss Armstrong, principal of the girls' department in the Central school, will spend her holidays this year visiting her old home and friends in Ontario. She will leave for the east immediately after the vacation sets in, which will be for seven weeks this year.

Mr. Nicholas Bawden, who has been a resident of Cariboo for the last 23 years, during which period he had not left that section of the country, left for England yesterday morning, *via* the Canadian Pacific and the Inman line from New York.

Mr. and Mrs. George Reilly leave for the east to-morrow morning *via* the C. P. R. They expect to be absent about a couple of months. During their absence they will visit their former home, St. Catharines, Ont., Toronto, Ottawa and other eastern points.

Mr. Mayesbanks, of Edinburgh, Scotland, known as the leading connoisseur in the flora and fauna of the different nationalities, returned last night from Alaska. To-day he was occupied with Mr. Fannin and others. He expresses himself as delighted with Victoria, but is compelled to return to Scotland.

Passengers per the Geo. E. Starr to-day: S N Hicks, F S Ambridge, B F William, L Samuel, George Arkley and wife, J McKinnell, Morgay and wife, F Clancey, Renaldo, Wm Day, B Campbell, J McGee, Miss Evans, Geo Jordon, R W Moloney, A Balder, Colt, J Arkley, T Drier and two daughters, Ebenell, E Nicklime and son, Miss Melish, S M Norton, Goldman, G L Day and wife, Baker, Adams, C Leroy, C B Bash, D E Blaine and wife.

Coming to British Columbia.

It is reported that the Rev. John Murray, of New Glasgow, Nova Scotia, has resigned his charge there and is about to remove to British Columbia. The reverend gentleman is well known in the upper country, especially in Nicola where he has a brother, Hugh, also well known and highly esteemed. He is brother-in-law to Mr. Charles McDonald, in the office of the Hon. J. W. Trutch, of this city.

Runaway.

A single team without a driver dashed down Government street this afternoon, and turning into Johnson street ran into a verandah pole. The horse was cut and the buggy pole broken.

Good Investments.

We have several FIRST CLASS BUSINESSES for sale, and those wishing to invest in Victoria should first call on us. PICKERING & Co., Fort street, box 634. *

Consignees.

Per the George E. Starr to-day: R Beauchamp, Hudson B C, Carne & M, S M Wilkes, Steitz Bros, Joe Levy.
